

Research Associate I – Biological Assay Development

MBio Diagnostics of Boulder, CO (www.mbiodx.com) is seeking to fill the position of Research Associate I to support our biological assay development programs. MBio is a technology company focused on next generation products for medical diagnostics, food safety, and environmental applications. The successful candidate will provide technical support for one or more research projects aimed at further development of MBio's product assays on the company's proprietary platform. Skills and qualities we are seeking include:

- Outstanding written and verbal communication skills
- A record of performance in team-centered, collaborative environments
- Passion for research
- Problem solving and resolve
- Driven and motivated in a start-up environment

Education and Experience:

- Bachelor's degree in biochemistry, molecular biology, microbiology, or related field from an accredited university.
- Entry level position – 0 to 3 years' experience.

Applicant must have authorization to work in the U.S. Resumes must be accompanied by a cover letter explaining how the applicant meets the job requirements and desired skills. Please email cover letter and resumes to jobs@mbiodx.com with applicant name and the job title listing in the subject line.

MBio Diagnostics, Inc. is an Equal Opportunity Employer.
